-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Applicant's election of method claims 1 and 5-8 (4 being canceled by amendment) in the reply filed on 21 August 2006 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. This application contains claims 2-3 and 9-12 drawn to an invention nonelected with traverse in Paper No. 21 Aug 2006. A complete reply to the previous restriction must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

3. Applicant questioned the status of FINAL in the original restriction requirement. A review of the restriction does not indicate any mention of FINAL. Specifically, the FINAL box (2a) on the Office Action Summary (PTO-326) is not checked (indicating it is not FINAL) and no mention of FINAL is located in the rest of the Office action. The restriction action dated 19 June 2006 was non-FINAL as is this instant action.

4. As a courtesy to applicant, it should be noted that in future amendments, the use of double brackets to delete text of 5 characters or

fewer is shown for example as [[text]] and not ((text)). Further, the text of a deleted claim should not be shown.

Claim Rejections - 35 USC § 112

5. The claims 1 and 5-8 are generally narrative and indefinite, failing to conform to current U.S. practice. They appear to be replete with grammatical and idiomatic errors. In claim 1, the letters i. and j. appear to be reversed.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1 and 5-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Canada 2302110. Canada '110 discloses the purification of water by employing the formation of gas bubbles in the liquid, adhering the

contaminants in the liquid to the bubbles, and decaying of the gas bubbles (Pg. 3, last paragraph). The contaminants once concentrated may be removed (pg. 3, 2nd paragraph) or channeled toward the bank where the contaminants would accumulate at the bottom (back into the water). Further, once removed the precipitated aggregates may be allowed to concentrate at the bottom of a channel.

8. Claims 1, 5 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by either one of Grobler (US 4176058) or Smyrnov (US 3884810). Either of the above two patents disclose the addition of bubbles to a contaminated flowing water system in which the bubbles attach to the contaminants and float to the surface where the bubbles are accumulated and removed.
